

Abano Terme (PD)
10/03/2020

To all Partners, Customers, Suppliers,

According to Fidia Farmaceutici S.p.A mission and policy, health and safety of people, and of course of our employees, are absolute priority.

This is why we decided to reduce potential risks, asking our colleagues, partners, visitors, ecc... to work remotely as much as possible, as well as to strictly follow all the rules our Government has recently published.

As a consequence, we are either postponing or organizing meetings to take place digitally, in order to guarantee usual working activities, until the risk of infection is minimized. This is not affecting our working activities, thus we guarantee full operations in, from and to the factories.

Also all transports of goods, in Italy and to foreign countries are guaranteed and operations proceed at normal capacity/as planned.

In addition to this, at present we do not foresee any issue related to the supply of materials from our suppliers.

We are sure you all agree on the precautions we are taking in this emergency period, and we will share updates when new information or guidelines need to be communicated.

Best regards

Carlo Pizzocaro
CEO Fidia Farmaceutici S.p.A.
