HYALO⁴[®] CARE

HYDROGEL / CLEAR HYDROGEL

At the core... of **wound care**

Indications for use

Hyalo4[®] Care Hydrogel and Hyalo4[®] Care Clear Hydrogel are indicated for the dressing and management of partial to full thickness dermal ulcers (pressure sores, venous stasis ulcers, arterial ulcers, diabetic ulcers), wounds including cuts, abrasions, donor sites, and post-operative incisions, irritations of the skin, and first and second degree burns. The dressing is intended to cover a wound or burn on a patient's skin, and protect against abrasion, friction, and desiccation.¹

Instructions for application¹

Step 1 Clean

The wounds or ulcers should be cleaned and disinfected prior to treatment.

Step 2 Apply

Apply a thin layer of the product without extensive rubbing onto the wound surface, once a day.

Step 3 Cover

Cover the wound area with a sterile gauze pad.

Step 4 Bandage

If necessary, cover the wound also with an elastic or compressive bandage.

Vascular ulcers

Pressure sores

Donor site and post-operative incisions

First and second-degree burns

When looking for a choice in wound management, the answer is clearly...

HYALO⁴[®]
CARE

HYDROGEL / CLEAR HYDROGEL

At the core... of wound care
